The Director Agriculture
Department of Agriculture, Government of Bihar,
Vikas Bhawan, Bihar, Patna-800 015

Subject: Nomination of Agricultural functionaries for Model Training Course reg.

Dear Sir/Madam

I am pleased to inform you that ICAR-Research Complex for Eastern Region, Patna is organizing an Eight days Model Training Course on "Conservation Agriculture: Mitigating Climate Change Effects & Doubling Farmers Income" during 11-18 September, 2018. The training is sponsored by the Directorate of Extension, Ministry of Agriculture and Farmers Welfare, Govt. of India.

This course will be very useful for extension functionaries working at field level in order to make the farmers aware of benefits of conservation agriculture technologies for improving crop productivity and profitability. The ultimate objective of the training is to provide the trainees with holistic knowledge and training on various aspects of conservation agriculture based interventions.

You are therefore, requested to kindly nominate at least 10 Officials of your esteemed organization for participation in this training programme. There is no Course Fee for participants. The provision to meet the travelling expenses has been made for participants from the State Development Department only. In case of trainees from organizations viz. ICAR, SAUs, KVKs etc., their TA/DA may be borne by their respective organization/institute. The brochure containing detailed information about the Model Training Course along with application form is attached herewith for your perusal and necessary action.

Hope to see you/your nominated candidates as participants in the training course.

With Regards

Yours Sincerely,

(J. S. Mishra)

I/c Director

Copy to: Additional Director (Agronomy), Department of Agriculture, Govt. of Bihar, Patna

Enclosures: Training Brochure and Application Form

About the Course

In Eastern Indo-Gangetic Plain (E-IGP) Zone of the country, sowing of winter crops is delayed due to the late harvesting of rice and tilling fields for winter crops resulting in lower yields and input-use efficiency. The institute has developed many resource conservation technologies in collaboration with international organizations and popularized the same on farmer's fields. Under the changing climate scenario, it is necessary to train the extension functionaries working in the agriculture in order to make farmers aware of the benefits of conservation agriculture technologies for improving the crop productivity and profitability. The ultimate objective of the training is to provide the trainees with holistic knowledge and training on various aspects of conservation agriculture based interventions.

Eligibility

Candidates are serving in the State Development Departments, Extension officers of the State, SMS/ Assistant Professor/Scientists and above or equivalent in the National Agriculture Research System (NARS) including the State Agriculture Universities, Krishi Vigyan Kendra, extension functionaries of the state, Agriculture and Allied Science Faculties of other universities.

Boarding, Lodging and Travel

Free boarding and lodging, as per the Ministry of Agriculture approved norms will be arranged in the Institute Guest house for all the participants. The selected participants will be paid for the journey, to and fro, restricted to AC-II tier fare or bus as the case may be as per approved norms (for State Govt. Officials only). Trainees from ICAR, SAU's, KVKs etc. have to claim their TA from their respective organization. However, all participants are entitled to avail the lodging and boarding and other facilities. The location Patna, which is well connected by air, rail and road to the major cities of India, The Patna railway station is approximately 10 km and bus stand is about 14 km from the Institute. Important landmark for reaching the Institute is Patna Airport and Bihar Veterinary College which are located within 1 Km distance from the Institute.

Administrative building cum Laboratory, ICAR- RCER, Patna

About the Division

The Division of Crop research started in this complex from the inceptions of the Institute with major emphasis on

1. Resource conservation technologies and impact of climate change
2. Integrated farming system research and development of IFS models for small and marginal farmers.
3. Varietal development for major crops.
4. Capacity building and Human Resource development

The Division has experts in the discipline of Agronomy, Genetics & Plant Breeding, Entomology, Plant Pathology, Agricultural Meteorology, Soil Science, Horticulture and Plant Physiology. It has close association with other divisions of the institute viz. Division of livestock & fishery management, Division of Socio-economic & Extension, Division of Land and Water Management, Research Centre for Makhana, Darbhanga, Research Centre for Horticulture and Agroforestry, Ranchi etc. as well as linkages with organization like CIMMYT, BISA, ACIAR, IWMI and IRRI. The division has international projects and many more National & Institute Projects on conservation agriculture.
